

Our Year of Extremes: Did Climate Change Just Hit Home?

In this NBC documentary Ann Curry investigates the current state of climate science and explores the

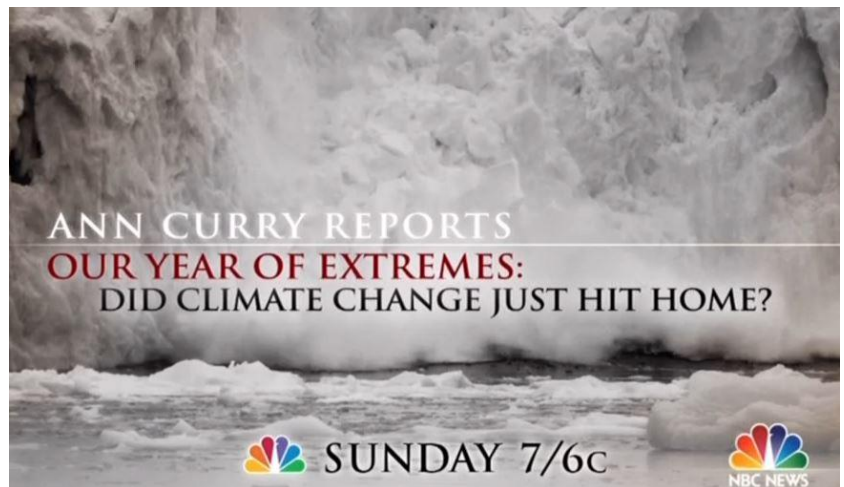

impacts being felt today in America.

I would like you to watch this documentary and look for instances of real examples of climate change here in the United States, especially those effecting the East coast and New England.

Write a 3 paragraph response paper (approximately 300 – 500 words) describing the major points of this documentary and what effects we might be facing in our area. Also, please include your personal opinion of climate science and climate change.

This will be due on Thursday, April 24, 2014

**LATE WORK WILL BE ACCEPTED
BUT AT A REDUCED SCORE**
