

The Year The Earth Went Wild

Link: <https://www.youtube.com/watch?v=mpQC-1-iwSY>

Name: _____

In this video from 2011 we will be seeing a wide array of natural disasters that occurred all over the world.

I would like you to watch and differentiate those disasters that are hazards resulting from the atmosphere, those that are not from the atmosphere and those who are partly atmospheric in nature.

Your response should be between 2-3 paragraphs in length and can be written on this sheet of paper (use back side if necessary).
