You can earn course credit at FSU this summer!!

Geog291, Western Field Study

Join us for 12 days seeing the BEST of central Europe! We will explore from Berlin to Dresden to Prague. Our travel adventure will combine museum visits, walking tours, and meetings with local experts, with plenty of time for personal explorations and discovery!

Berlin, the city where East meets West, is a new center of political power and social change in the EU. Dresden offers special charms and secrets. Once known for the terrible retaliatory fire-bombing of 1945, its now experiencing a renaissance as a capital of industry and innovation.

Finally, the magical realm of Prague is perhaps the most storied city in Europe. Here one can history unfold through the medieval Castles, walk in the footsteps of the Prague Spring, and celebrate the Velvet Revolution and the end of communist rule.
